Introduction

Technofix Enterprises is an affiliated training partner of **Skill Development Council** (a project of Overseas Pakistanis' and ministry of labor & man power of Govt of Pakistan) and is a subsidiary of **Ainulhaq & Bros Engineering**, engaged in imparting technical training to the youth and young upward professionals employed or planning to be employed in various trades. The project is aimed at fulfilling the local & foreign requirements of skilled man power and human resources with true spirit to curb unemployment, bringing opportunities to our adolescents and future generation.

Being the principal organization **Ainulhaq & Bros Engineering** is playing a vital role for our trainees to develop and enhance their skills and abilities with confidence, employing them in different ongoing projects, which increase their practical exposure in the field of Manufacturing, Commissioning, Servicing and Erection.

Our apprentices and professionals successfully completing various training programme offered by the institution have been appreciatively absorbed by the national and multinational organizations in recognition of their eligibility.

Currently we are extending our facilitations for the training and development of:

- All kinds of Fabrications
- Erection mechanical/electrical
- Millwright
- Machinist
- Welders SMAW/GMAW
- Hydraulics

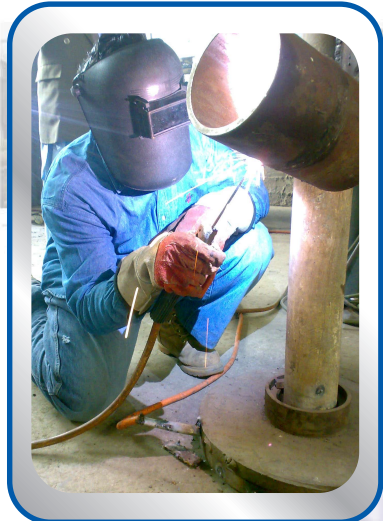

Vision
